

What is Cell type?

The Cell Ontology is designed as a structured controlled vocabulary for cell types. This ontology is not organism specific; indeed it includes cell types from prokaryotes to mammals, including plants and fungi.

Discuss Cell type Terminology

Please go to the [Cell type discussion page](#) to leave comments regarding the Cell type Terminology.

Examples of comments may include:

- How you are using this terminology
- Why you decided to use (or not use) this terminology
- Strengths or limitations of the terminology
- Comparisons to other similar terminologies
